INTRODUCTION

Univision Communications Inc. ("UCI") owns and operates two television broadcast networks, Univision and UniMás; local television stations; the cable networks, Galavision, TUDN, TUTV and Fusion; radio stations; and associated digital platforms and social media accounts. UCI serves a broad and diverse audience, composed of the vast and fast-growing Spanish-speaking population in the continental United States and Puerto Rico, which encompasses many countries of origin and cultures.

These Advertising Compliance Guidelines apply to UCI and are intended as a tool to assist advertisers, advertising agencies and promotional representatives. They must be observed in the creation and production of commercials, including but not limited to infomercials, billboards, promotions, and other integrated commercial materials for broadcast by UCI and for insertion by our cable and satellite affiliates. These Guidelines do not apply to advertising which contain a "use" by a legally-qualified candidate for elective office – an ad which features the identifiable voice or image of the candidate, presented in a positive light.

These Guidelines are not meant to be all-inclusive or complete. They are intended to provide the general framework necessary to maintain the quality and integrity of commercials that will be accepted for broadcast by UCI. UCI, from time-to-time and at its sole discretion, may modify these guidelines to accommodate changes in law or changes in UCI (or industry) practice.

Our guidelines require that all commercials broadcast by UCI be presented in a manner that is truthful, tasteful, and not misleading or deceptive. Commercials must fully comply with all applicable laws, rules and regulations (all such laws, rules and regulations, "Legal Requirements"), including regulations issued by the Federal Trade Commission ("FTC") and Federal Communications Commission ("FCC"). UCI may require, as a condition of accepting proffered advertising, any revisions deemed necessary in UCI’s sole discretion to conform to these Guidelines or to any laws, rules or regulations.

The advertiser has the ultimate responsibility of complying with all Legal Requirements. The advertiser should be particularly diligent with claims made in a commercial, as all such claims must satisfy the FTC’s substantiation standards. Additionally, commercial “content” must be clearly and accurately presented as such to avoid any ambiguities and to avoid confusing the audience. Advertisers are encouraged to consult with their professional advisors, regarding all applicable Legal Requirements.

UCI reserves the right, in its sole discretion, to accept, reject or require revision of ANY commercial submitted for broadcast at any time, whether or not it complies with these Guidelines.
**Clearance of Commercials Procedure**

All commercials to be aired over UCI must be cleared and approved by the Advertising Compliance Department ("Ad Compliance") prior to broadcast.

To initiate Ad Compliance review, advertiser should submit:

- A copy of the advertisement (if produced) or if the advertisement is not yet produced, a rough-cut copy, storyboard or script; and
- Any required substantiation of claims made in the ad (see “Claim Substantiation” below).

In addition, Ad Compliance may request the following:

- A product sample and label/package insert;
- Authentication of all testimonials and/or comparisons;
- Studies, surveys, tests, research reports, and other data furnished or generated by professional institutions that provide a basis for the claim(s) presented; and
- Any other item or information deemed necessary to comply with these Guidelines, company policies, or laws, rules and regulations.

To avoid delays in the airing of an advertisement, materials should be submitted well in advance of the scheduled air date.

Questions regarding the Guidelines and materials delivery should be directed to the Account Executive.

**Confidentiality**

All information and materials submitted by advertiser(s) to UCI’s Ad Compliance will be treated as strictly confidential.

**Claim Substantiation**

All material claims, express or implied, including references to the results of research and surveys or tests must adhere to FTC guidelines and regulations.

Ad claims must be substantiated with valid and relevant scientific and/or market research.

Substantiation may include such research methods, as laboratory testing, clinical studies, surveys and field tests.

To avoid post-production revisions or other last-minute issues, appropriate substantiation must be submitted well in advance of production or scheduling of any commercial.

Substantiation must be submitted to the Ad Compliance department for review to adcompliance@univision.net.
**Community Sensibilities**
Commercials must be free of obscene, indecent, profane, vulgar, or any other language gestures, and/or images that UCI believes, in its sole discretion, may be offensive or violate local, state or federal law or policies.

UCI will not accept any commercial that it believes, in its own discretion, may misrepresent, ridicule or attack an individual or group of individuals on the basis of race, sex, sexual orientation, religion, creed, age, national origin, ethnic derivation, physical mental handicaps, or any other reason to avoid damaging or demeaning stereotypes.

Advertisers are urged to exercise caution to ensure that language acceptable in some Spanish-speaking communities, but offensive in others, is not used inadvertently.

Advertising which promotes or depicts, violence, crime, obscenity, or any other forms of anti-social behavior is unacceptable.

Due to heightened community sensitivities during national and international tragedies, it may be necessary to reconsider or reexamine audio and/or video in commercial messages, even if previously approved.

**Comparative Advertising**
Comparisons and demonstrations must be based on specific differences between the products or services advertising, comparing similar or related properties or ingredients. Such comparisons must be significant and meaningful.

The advertiser must substantiate all comparative claims made in a commercial, meet all regulatory and industry standards (including but not limited to standards of the National Advertising Division of the Council of Better Business Bureaus), and observe the following:

- Identify competitors and present them fairly.
- Avoid the use of unfair business practices including the use of any content which could disparage, defame, slander, libel or present competitors in a deceptive, misleading or potentially misleading light.
- Use side-by-side product comparisons only if the advertiser satisfies all substantiation of claims requirements.

**Competitive Media**
UCI, at its sole discretion, may consider advertising from competitive media companies based on the following guidelines.

- No mention of day, date or time of the program/event are identified in the commercial.
- No competitive ads from Spanish language media.
- Creative should not exceed a duration 30 seconds.

UCI may reject any commercial which in its sole discretion, may be competitive to any program broadcast on any of the Networks or Stations, or is otherwise contrary to UCI’s business interests.
**Contests and Sweepstakes**
Advertising for an advertiser-sponsored contest or sweepstakes is acceptable. However, advertisers are obligated to design and undertake contests/sweepstakes in compliance with applicable Legal Requirements, including those that address lotteries, games of chance, prizing and gifts. Commercials that include contests/sweepstakes must contain the following information:

- How to obtain a complete set of rules.
- Approximate retail value of the prize.
- Information on alternative methods to enter (if applicable).
- Entry deadlines of the promotion.
- Restrictions and/or eligibility requirements.
- Name and contact information on sponsors or prize suppliers.
- A reference to participating locations if only some retail outlets are involved in the promotion.
- Statements with the disclosures “No Purchase Necessary” and “Void Where Prohibited”.

**Controversial Content**
UCI will consider on a case-by-case basis advertising that presents a position on a controversial public issue. At all times UCI reserves the right to accept or reject such advertising. All approved advertising may be restricted from specific programming or digital platforms.

Advertising that presents a position on a controversial public issue may be unacceptable if:

- Its content, or other content referenced in or associated with the ad, or otherwise disseminated by the advertiser, is deemed offensive;
- It is an attack of a personal nature, an attack on an individual business, or a comment on a private dispute;
- It contains violent or otherwise graphic or potentially offensive content that is deemed to be inappropriate for our audience or incompatible with any of our other advertising standards;
- Its content or style of production is otherwise deemed inconsistent with any corporate policy or general standards, as determined by UCI.
Digital
UCI encourages advertising in the digital platforms from organizations, whenever the message is in compliance with all applicable laws and governmental rules and regulations, including the Digital Advertising Alliance and the rules promulgated by the Federal Trade Commission, Privacy Policies and Children’s Online Privacy Policy.

For more information of clearance of advertising in the digital platforms, please refer to UCI’s Ad Choices and Privacy Policy.

Disclaimers/Disclosures
Disclaimers cannot be used to oppose a claim.

Visual disclaimers/disclosures must be legible and appear on the screen for no less than five (5) seconds.

Audio disclaimers/disclosures should be easily heard and understood.

Ad Compliance may request specific disclaimers/disclosures depending on the service, product or promotion being advertised.

Dramatizations and Re-Enactments
Commercials containing dramatizations or reenactments of actual events must include a disclosure informing the viewers that the event is a dramatization or a re-enactment.

Endorsements and Testimonials
Affidavit of the endorser may be required by UCI.

Endorsements and testimonials must honestly and accurately reflect the opinions, findings, or experience of the individual endorsing the product or giving the testimonial.

Endorsements by Talent must be cleared by UCI.

Environmental Claims
All environmental claims for a product, package or service must be reasonably substantiated (for example, environmentally friendly, eco-friendly, ozone safe/ozone friendly, green, recyclable, non-toxic, biodegradable, compostable).

Language
Spanish language should be used in all commercials/paid programs, subject to these exceptions and variations as approved in writing by UCI.

- Commercials
Commercials may air over UCI network/stations during tent pole events, sports programming, and commercials for movie trailers, music, taglines, video games, etc. that are inherently in a language other than Spanish.

In addition, UniMás, Galavision, TUTV, Fusion and radio stations will accept English-language commercials.
All UCI will accept bilingual and dubbed spots.

All UCI accepts subtitled spots, however for UCI use of subtitling should be minor.

- **Infomercials (Paid Programs)**
  Univision stations may allow from time to time English language infomercials, market restrictions will apply.

  Infomercials airing over UniMás stations, Galavision, TUTV and Fusion may air in English with time placement restrictions.

  Bilingual infomercials may air on Univision stations, UniMás network/stations, Galavision, TUTV, TUDN and Fusion networks.

  Dubbed and subtitled Infomercials may be allowed on UCI on a case-by-case basis.

**Live**
UCI will not accept commercials that include the word “live” when inaccurately identified or misrepresented as a real time broadcast.

**Multiple Products/Services in Commercials and Infomercials**
Commercials may not portray more than one product/service at the same time unless the product/service is part of an overall advertising campaign (for example, restaurant chain includes toy characters from a movie with their children’s meals).

**News Techniques**
Advertisements may not contain language, audio/visual approaches nor formats that simulate news broadcasts/settings which could create confusion. UCI in its sole discretion may prohibit other techniques.

**Piracy and Infringing Activities**
The intellectual property rights of others is respected and enforced by UCI. Advertisements for services, products or other mechanisms that may be used to infringe other’s intellectual property rights will not be accepted by UCI. An advertisement that includes infringing activity includes but is not limited to the illegal dissemination of content; the selling/offering of content on unauthorized platform(s); the circumvention of copyright, trademark, or other affixtures in representation of content ownership; and/or any other unauthorized peer-to-peer sharing of content.

**Public Symbols**
Commercials must be free of any disrespectful use of the flag, national emblems, anthems or monuments.
**Safety**
Advertisers must at all times comply with safety procedures under applicable Legal Requirements, policies and practices prescribed by the entertainment and/or advertising industries, or that are otherwise prudent. All advertising which disregards normal safety precautions will not be accepted.

Particular attention must be paid to ensure that children are not inadvertently encouraged to undertake dangerous activities. Children shall not be represented, except under proper adult supervision, as using or being in proximity to a product or a situation recognized as potentially dangerous to them.

**Sponsor ID/Commercial Mentions**
Sponsorship identifications must comply with the Communications Act, with FCC rules and regulations, and any other applicable government rules and regulations, as these may be amended from time to time. Appropriate identification of the sponsor(s) must be made in all cases.

- **UCI Programming**
  Certain Television Station programming and Network Programming may provide opportunities for the paid placement or integration of commercial products or services. Any placement or integration of a product in such a program will always be disclosed on air, at the time the program airs, with language such as “promotional consideration paid by” or “sponsored by,” as required by law. Also, if a party provides any consideration (including prizes) to have specific program material broadcast, then there must be a disclosure on air that the program material or promotion is “sponsored by” or “paid for by” that party. Any “teaser” advertising the program material or promotion must mention the name of the sponsor or its product. All programming shall follow UCI’s programming guidelines. UCI does not provide product placement or integration within newscasts and does not give news coverage in exchange for business. UCI does allow the sponsorship of sports, health, weather and specialty segments in newscasts, subject to the appropriate disclosures.

- **Standard Advertisements**
  With respect to a standard advertisement for a commercial product or service, which is clearly an advertisement (that is, not a product integration or placement), it is sufficient sponsorship identification for the advertisement to mention the sponsor's corporate name, trade name or product name in the content. Issue and candidate advertising are subject to additional disclosure requirements. A website URL does not necessarily constitute adequate sponsorship identification unless it is the official name of the sponsoring entity.

**Stereotyping**
Commercials must be free of presentations that stereotype or demean persons on the basis of their sex or sexual preference, culture, ethnic origin, color, creed, religion, culture, or impairments.
Subliminal Messages
The use of subliminal perception techniques is generally unacceptable. Any audio or video technique which attempts to convey information to the viewer by transmitting below the threshold of normal awareness (for example, an image that registers subconsciously) is not permitted.

Talent in Commercials
Requests for Network or Television Station talent to appear in commercials will be considered on a case-by-case basis. Approval may be conditioned, among other things, on whether the commercial is consistent with the talent’s image, the frequency such commercial is to air, scheduling restrictions, etc. It is UCI’s standard policy not to permit news anchors or reporters to appear in commercial announcements, and talent is not typically permitted to voice or appear in political advertisements or to request donations.

Telephone Number Information
- **U.S. Domestic**
  Advertisements that include telephone number information must disclose the applicable area code.

- **International**
  In the event an international telephone number is included, it must be clearly stated that any additional charges may apply.

- **900 Service (Entertainment)**
  In the event a 900 telephone number is included, the advertisement may be accepted provided that the following is contained:
  - The cost of the initial phone call and the charges for each minute thereafter.
  - Information regarding the cost for party lines, conference calls, or any other pay-per-call services to which the caller may be transferred.
  - A statement to the effect that the service is only available only to individuals 18 years of age or older.

UCI should be assured by the advertiser that the public will be able to communicate in the Spanish language.

Texting Services
UCI will accept advertisements for mobile texting provided that they comply with all the applicable laws and regulations. Where applicable, the advertisement must adequately disclose that message and date rates may apply.
**Third-Party Rights**
UCI will not accept advertising that includes any element of intellectual property for which the advertiser has not obtained the owner’s consent to use, including but not limited to music rights.

UCI will also not accept advertising that gives rise to any other colorable claim of infringement, misappropriation or other form of unfair competition. Submission of a commercial constitutes warranty to UCI that all elements have been cleared with respect to intellectual property rights. Advertiser must submit proof of clearance upon request by UCI.

**Use of UCI Logos, Trademarks and Intellectual Property**
Advertisers may not create associations or sponsorships of an event or imply any other relationship with UCI (for example, UCI material/footage, UCI logos, trademarks or tradenames) without prior written consent.

**Reservation of Rights**
UCI reserves all rights with respect to their business and operations including, but not limited to, the clearance, scheduling, programming, and broadcast of commercials and, in their sole discretion, UCI may (or may not):

- Review commercials and accept or reject any commercial at any time prior to the scheduled broadcast time, or anytime thereafter.
- Conduct background or financial inquiries on advertisers.
- Confirm/investigate the accuracy of the statements/claims presented in commercials.
- In addition to the documentation that an advertiser is required to provide under these Guidelines, UCI may require an advertiser to furnish additional documentation to substantiate, to its satisfaction, any of the claims made in a commercial.
- Require an advertiser to eliminate, add or revise any element of a commercial.
- Revoke the prior clearance of any commercial.
- Determine the scheduling, format, quantity and length of all commercial breaks during and adjacent to programs broadcast by UCI.
- Determine the number and placement of commercials.
- Determine what promotions and other announcements are placed within each commercial break.

The final and overriding principle, however, is that UCI reserves the right, in its sole discretion to accept, reject or require revision of ANY commercials submitted for broadcast at any time, whether or not they comply with the Guidelines.

The implementation of these Guidelines will be supervised by UCI’s Ad Compliance Department. Any legal questions regarding these guidelines or their implementation should be referred to the office of the Chief Legal Officer.
